

I support media diversity

I am writing in regards to Docket No. 02-277, The Biennial Review of the FCC's broadcast media ownership rules. Allowing companies to own larger shares of the media outlets deprives the public of diversity in information. As a democracy, an informed public is necessary to run the nation correctly. The United States citizens need a plethora of outlets to receive their information. Allowing conglomerates to become more and more dominate in the media results in a public that can no longer make proper and educated decisions. For the sake of the United States of America and its integrity as a prosperous nation, I urge you to not allow media companies greater domination of the market.

Thank you for you time.

Sincerely,

Christen E. Carroll
